After graduating from the Pacific Academy of Homeopathy I started attending homeopathic seminars in other countries, mainly in Holland, where I grew up. Meeting and hearing these fine teachers, authors, and homeopaths: Alize Timmerman, Jan Scholten, Frans Vermeulen, Roger van Zandvoort and others, I was inspired to bring them to the San Francisco Bay Area so that other homeopaths could also receive these fine teachings. That's how HomeopathyWest came into being. Now that we have hosted several succesful seminars in and around Berkeley, HomeopathyWest intends to continue to promote community, connections and to further encourage the creative exchange of ideas between homeopaths here and abroad. We invite your thoughts and comments: which homeopaths would you like to hear and see. We will do our best to try and make these seminars happen.
